

ROTOVAC™

CARPET RESTORATION SYSTEM

We always strive to use the best equipment for each cleaning job. For **carpets**, we use a patented system called **Rotovac**, which cleans with superior results. The Rotovac outperforms all other methods of **carpet cleaning**. As far as we know, Above & Beyond is the only cleaning company in southern New Jersey that uses this system.

Our Rotovac system cleans your carpet from all directions with 1,500 mechanized cleaning passes per minute.

With the patented Rotovac system your carpets will look, feel, and stay cleaner longer.
